

Your fire and life-safety systems are only as dependable as the service that helps keep them running at peak efficiency. We can provide expert care for all of your fire and life-safety system needs. Not only do we have a broad portfolio of services, but we can also offer building owners, facility managers and maintenance supervisors the peace of mind of having one point of accountability that extends across your entire operation.

Advanced technology. Highly trained technicians. Over 40 years of experience. These are just some of the reasons why Commercial Fire & Security is a trusted life-safety service provider.

With Commercial Fire & Security, we make it simple for you.

Simpler Total Service Solution

Our extensive service resources NICET certified technicians and a fleet of installation and service vehicles can keep your systems performing at their best, ready for an emergency response. Our service specialists are located in New York & New Jersey, ready to help you with testing, inspection, preventive maintenance, and 24/7 emergency service. Because our service expertise spans the life-safety spectrum, we can often inspect and/or service multiple systems during a single visit, helping to ensure system readiness while saving you time and money.

Simpler for You to Manage

Dealing with multiple vendors can be expensive and time consuming; results can be inconsistent. Using a partner for all of your fire alarm systems can save you time and money. We'll give you one maintenance schedule. One point of accountability, one process for logistics, scheduling, reporting and vendor management.

Simpler for You to Budget

Selecting our Extended Service Program offers you an easier way to budget. Your expenses are more predictable. Our Extended Service agreements can be structured to include:

- Testing and Inspection;
- Scheduled Maintenance;
- 24/7 Emergency Services and Repair;
- Central Station monitoring.
