

Extended Service Program

The Commercial Fire & Security Difference

Training & Certification

- Extensive in-house product and service training helps ensure our team is prepared to meet your needs.
- Commercial Fire & Security team members are certified through the National Institute for Certification in Engineering Technologies (NICET).

In-Depth Code Knowledge

- Technicians possess exceptional knowledge of codes, standards and regulatory requirements.
- Helping customers comply with standards such as NFPA 72: National Fire Alarm & Signaling Code, NFPA 101: Life Safety Code and NFPA 25: Inspection, Testing and Maintenance of Fire Alarm Systems

Advanced technology. Highly trained technicians. Over 40 years of experience. These are just some of the reasons why Commercial Fire & Security is a trusted life-safety service provider.

Customer Benefits:

- Control your budget with no unexpected charges.
- Keep your systems performing at their best, ready for an emergency.
- Overall lifecycle cost savings.
- One maintenance schedule. One point of accountability. One process for logistics, scheduling, reporting & vendor management.

Simpler for You to Manage

Dealing with multiple vendors can be expensive and time consuming; results can be inconsistent. Using a partner for all of your fire alarm systems can save you time and money. We'll give you one maintenance schedule. One point of accountability, one process for logistics, scheduling, reporting and vendor management.

Simpler for You to Budget

Selecting our Extended Service Program that offers you an easier way to budget. Your expenses are more predictable. Our Extended Service agreements can be structured to include:

- Testing and Inspection;
- Scheduled Maintenance;
- 24/7 Emergency Services and Repair;
- Central Station monitoring.

Simpler Total Service Solution

Our extensive service resources NICET certified technicians and a fleet of installation and service vehicles can keep your systems performing at their best, ready for an emergency response. Our service specialists are located in New York & New Jersey, ready to help you with testing, inspection, preventive maintenance, and 24/7 emergency service. Because our service expertise spans the life-safety spectrum, we can often inspect and/or service multiple systems during a single visit, helping to ensure system readiness while saving you time and money.
